

ANNOUNCEMENT:

NAMF STARTUP GRANT IN MIXING

Sponsored by:

The North American Mixing Forum
of the American Institute of Chemical Engineers

Purpose:

To encourage new faculty to begin research careers in areas that will impact the general field of fluid mixing technology.

Eligibility:

Any untenured but tenure-track faculty member at a Ph.D. granting institution in North America.

Funding:

A single \$20,000 grant will be offered, beginning January 1, 2005, in two annual installments of \$10,000. The recipient will be announced at the November 2004 AIChE meeting in Austin. The use of grant funds is restricted to direct research expenditures and excludes overhead, administrative charges, secretarial support, academic year charge-out, etc. The recipient is expected to attend the Biennial Conference of the North American Mixing Forum, Summer 2005, to present initial results, and the Biennial Conference, Summer 2007, to present final results.

Application: A signed original plus 3 copies of the proposal should be sent to:

Prof. Piero M. Armenante
NAMF President
Otto H. York Department of Chemical Engineering
New Jersey Institute of Technology
University Heights
Newark, New Jersey 07102-1982
Office Phone: +1-973-596-3548
Dept. FAX: +1-973-596-8436
Email: piero.armenante@njit.edu

The deadline for receipt of proposals is **September 15, 2004**.

The format of the application is open. Enough information should be given to enable a rigorous evaluation of the scientific merits and potential impact of the work. The text should be limited to ten pages (12 point @ 1.5 spaces) including summary, introduction, proposed work, figures and future directions. A title page, one page budget, references and two page vitae are additional. The decision of the referees will be final. NAMF reserves the right not to award the grant if no application is judged sufficiently meritorious.
